RETHINK WHAT’S POSSIBLE

What would your home look like if you had no limits? If the hottest interior trends were entirely affordable... If the most sophisticated designs were tough enough to withstand your lifestyle... If you could fall in love with your floor with no worries and no regrets.

Armstrong® Laminate Flooring makes it all possible: high design, premium quality and practical value — all from the most trusted brand in flooring. When you choose Armstrong, you get the peace of mind that comes from a brand with a 150-year legacy of delighting customers. Join the generations of families that have trusted Armstrong to bring quality, style and lasting value to their homes.

PRODUCT GUIDE ................................ 68
THE MOST INNOVATIVE DESIGNS IN LAMINATE

It all begins with the imagination of our design team. Drawing inspiration from art, nature, fashion and culture, they transform the latest interior trends into fabulous floors.

Award-winning Armstrong® imaging technologies give our designers the freedom to create trend-setting looks. They know any extraordinary combination of colors and textures they imagine can be brought to life through exclusive Armstrong technologies.
WEATHERED CHARM

Inspired by driftwood with its deep grays and warm undertones, the wide planks of Weathered appear to have withstood years of exposure to wind, sun and sea. The beauty of the coast is translated into a floor with visual texture and natural charm.

RUSTIC BEAUTY

Rough-hewn planks of white oak are deeply textured with knots and saw marks to create the rustic look of X-Grain. This unpolished look brings to mind the simple country cabins and hand-crafted furniture of generations past while being perfectly in step with current interior trends.
EXOTIC PATTERNS

The exotic pattern and detailed graining of Acacia, a richly colored African hardwood species, transform the floor from a neutral background into a central design element. Hand-scraped texture and random plank lengths add to the realism of this globally inspired style.

RECLAIMED TREASURES

Once one of America's most popular hardwoods, American Chestnut is now so rare it is available only as reclaimed lumber, and at a premium cost. The character of chestnut's prominent knots and natural mineral streaks, burnished and stained by years of use, has been recreated with precise accuracy and realistic texture in this extraordinary style.
UNEXPECTED MATERIALS

Creative designers have taken flooring beyond the standard woods and stones to embrace unexpected materials. Those custom designer looks are now available in laminate. Sea Wall uses random widths and texture to create the effect of precast cement weathered by sand and saltwater. With a shift in color, it becomes Ore, reclaimed metal from the ocean floor, pitted with age for a rich patina.
MORE THAN JUST A PRETTY FLOOR

Beneath the striking beauty and realism of our designs is the quality and durability you expect from Armstrong. Our laminate floors carry the industry’s best residential warranties, ranging from 20 years to a lifetime. Many collections are even tough enough to be warranted for commercial use. Like our extraordinary designs, our extraordinary performance is made possible by exclusive Armstrong technologies.
NATURAL BEAUTY

Armstrong’s groundbreaking designs are brought to life in such brilliant detail, they are often mistaken for the real thing. MasterWorks Technology® and MasterWorks Technology with VTx™ surface texture create the clearest images, most vibrant colors and most realistic designs in flooring.

OUTER PROTECTION

Armstrong wear protection means you can live life comfortably on your floor without living in fear of damaging it. Our VisionGuard® wear surface helps protect against scratches, surface spills, stains, fading, scrapes and wear-through and makes cleaning stress free.

All our floors have an abrasion test rating of AC3 or higher. The higher the AC rating – AC1 to AC5 – the better the wear resistance and durability of the product. Our Commercial VisionGuard wear surface provides the ultimate protection with AC4 and AC5 ratings.

INNER STRENGTH

Armstrong laminate floors are built around our HydraCore™ core, which helps provide stability, lasting durability and moisture resistance. HydraCore Plus provides all the features of HydraCore, plus it gives your floor a more substantial feel and the optimum in sound absorption.

EASY INSTALLATION

Armstrong laminate can be installed in any room in the house – kitchen, living room, basement – even the bathroom. Plus, it installs over nearly any existing floor with no mess and no hassle. ArmaLock® aligns for a virtually seamless appearance. Lock&Fold® is the fastest and easiest installation available – just lock and fold and your floor is ready to enjoy. For full warranty coverage, we require the use of Premium Quiet Comfort or Quiet Comfort Underlayment (page 65) for all installations.
At Armstrong, we take extra care to make sure the best techniques are used to enhance our designs. We carefully determine what surface texture, edge treatments and gloss level will bring our floors to life, making them as realistic as possible. We spare no detail, whether it’s on our Commercial, Premium, Best or Better products, we make sure all our laminates visually and texturally represent the material they are replicating.
TEXTURE

Many types of embossing techniques are used to create the best surface texture for each design.

**Embossed-in-register (EIR)** – Creates a dramatic level of realism by accentuating the texture that is aligned with the design image. Examples include knots, chatter marks, wood grain and tile grout lines.

**Overall (OT)** – Texture is applied over the entire surface enhancing the design. The texture does not align to the design image.

**Hand-scraped (HST)** – Consists of a soft to heavy hand-scraped wood effect, often with chatter marks, depending on the design.

**No surface texture (NT)**

ENDS & EDGES

The end and edge on an individual plank gives a room that special touch.

**Pressed End/Pressed Edge (PEPE)** – This attribute uses a slower, precise technique that softly presses down the edges of the plank. The edge effect is subtle and offers a premium look.

**Micro End/Micro Edge (MEME)** – A small-cut bevel is created to delineate each plank when installed next to each other. The bevel is small enough to enhance the edge and the end of the plank, but not large enough to collect dirt or dust.

**Square End/Square Edge (SESE)** – No bevel on the ends and edges of a plank. This creates the look of a formal sanded floor or grouted stone and tile.

GLOSS

The level of gloss on a floor is what gives it the “wow” factor. Each gloss is chosen to enrich and feature the design image.

**Low Lustre (LLG)** – A smooth sheen gloss that enhances the design image.

**Low (LG)** – A low gloss that replicates the look of oil-rubbed hardwood or natural stone.

**Medium (MG)** – A mid-gloss that is in between our low gloss and piano gloss.

**High (HG)** – A high gloss formal finish that shines.
The look of premium domestic hardwood in a high gloss piano finish

Collection design features:
- 5" wide planks
- 12mm thick planks for solid feel and sound absorption
- Commercial VisionGuard® with AC5 wear layer

**Lifetime** Residential / **15-Year Commercial Warranty**

FINISHING TOUCHES

For a finished look and smooth transitions to adjoining flooring surfaces, Armstrong offers a complete selection of coordinated trims and moldings in all species and colors.

THRESHOLD
Finishes the space where laminate flooring ends such as, sliding glass doors, wall bases, door thresholds and carpet.

T-MOLDING
Fills the gap at doorways, and finishes spaces between the two areas of laminate flooring.

QUARTER ROUND
The classic finish to your laminate floor, used where wall and flooring meet.

MULTI-PURPOSE REDUCER
Provides a smooth transition from your laminate floor to another type of flooring at a lower height. Also, finishes the space where laminate flooring ends against a vertical surface and where a quarter round cannot be used such as, sliding glass doors, against cabinet toe kicks, or carpet.

STAIR NOSE
Used where laminate flooring meets a step down or landing, or great for staircases.

ALUMINUM MOLDING

- Full assortment of ADA-compliant trims and moldings
- All colors can be used with any floor
- Provides enhanced durability
- The 3-in-1 trim contains the reducer and threshold add on components, therefore any of the 3 profiles can be obtained; track is included with the 3-in-1 bundle (see page 60 for details)

REDUCER
Provides a smooth transition from your laminate floor to another flooring at a lower height.

THRESHOLD
Finishes the space where laminate flooring ends such as, sliding glass doors, wall bases, door thresholds and carpet.

T-MOLDING
Fills the gap at doorways and finishes spaces between the two areas of laminate flooring.
Lock&Fold® technology is the industry’s fastest and easiest installation system. No angling of the short end and then the long end – simply lock and fold. Reduced installation time means you can enjoy your new floor sooner with less interruption to your home.

UNDERLAYERMENT

Armstrong has engineered a line of underlayments to be used when installing laminate floors. The use of quality underlayment is critical to a successful installation and should be installed prior to laying planks. Use the pre-applied tape for a seamless moisture barrier, especially over concrete. These underlayments can also be used with any floating floor installation.

*When installed with Armstrong laminate flooring
Trusted for uncompromising quality and integrity, Armstrong backs its laminate flooring products with the best warranties in the industry.

COMMERCIAL, LIGHT COMMERCIAL & RESIDENTIAL WARRANTIES

Buy Armstrong flooring with confidence. Armstrong guarantees to the original purchaser that, for the length of the product warranty, Armstrong laminate flooring:

• Will not stain**
• Will not fade from sunlight or artificial light**
• Will not show wear-through**
• Will not contain manufacturing defects
• Will resist water damage caused by normal household spills and cleaning when our recommended installation and cleaning practices are used*
• Will not unlock at the seams

For complete details of our limited warranties, please visit www.armstrong.com and refer to our Laminate Floor Care and Warranty Guide.

*Residential warranty only
**Under normal household use when maintained in accordance with our recommended maintenance guidelines.

EASY CARE

Maintaining the beauty of your floor couldn’t be simpler. Just sweep or vacuum as needed. Clean periodically with Armstrong® Hardwood & Laminate Floor Cleaner, and be sure to wipe up spills immediately.

ARMSTRONG® HARDWOOD & LAMINATE FLOOR CLEANER

Specially formulated for Armstrong laminate floors.

• Ready-to-use formula
• Requires no rinsing
• Simply spray and wipe or mop!

</table>

Note: The 3-in-1 trim contains the reducer and threshold add on components, therefore any of the 3 profiles can be obtained. Track is included with the 3-in-1 bundle.

**Molding Information:**

For Commercial molding see page 56.

Non-aluminum moldings are beveled.

Any molding requiring a track system for installation includes the track system in the packaging.

*Graphic shown depicts grout lines for tile products or plank style.
**Stair Nose is 8 mm thick and requires the plank to be shimmed or the nosing modified in the field to reduce the thickness to 7 mm.
Any molding requiring a track system for installation includes the track system in the packaging.
Armstrong has been providing beautiful, long-lasting flooring for more than a century. Our name is known and trusted the world over for consistent quality, innovative designs and incredibly satisfied customers. And most important to today's shoppers, Armstrong has an exciting array of flooring for every home and every personality. Everything from resilient sheet to laminate and linoleum; vinyl tile and plank to hardwood. Let us help you find the perfect flooring that will turn your ideas into reality.

Sustainability and Community Involvement

Armstrong is committed to helping you reduce the environmental impact of the buildings you create from product design and raw material selection, to how products are made and delivered. Our Laminate products meet the CARB Phase II requirements for low emitting materials and the CDPH Standard Method for the Testing and Evaluation of Volatile Organic Chemical Emissions, 2004. Plus, low-emitting adhesives that are compliant with SCAQMD Rule #1168 are available. The majority of our products are manufactured in ISO 14001 certified facilities.
