Geberit concealed cisterns
Introduction to the Geberit cisterns 10

Geberit actuator plate overview 5

Geberit Sigma cisterns 12

Geberit Omega cisterns offer solutions for low-height applications.

Technical information 22

Geberit Alpha cisterns are the latest members of the family.

Overview of all cisterns 23

Concealed allrounders.
For every bathroom the right cistern.

What you see is what you get. The Geberit actuators are the only part of the concealed cisterns that you see and touch several times a day. Find the applications and an overview.

When do you install which cistern?
Find the answers.

The Geberit actuator plates not only come in a large variety of designs, but also for every application. Be it at home, in a semi-public place like a hospital, or in a public place with a high traffic like e.g. an airport; there is an actuator plate for every requirement.

Geberit Sigma cisterns are providing a lot of possibilities for high-class design in your bathroom.

Geberit Omega cisterns offer solutions for low-height applications.

Geberit Alpha cisterns are the latest members of the family.

There is a long history behind the Geberit concealed cisterns. Find out more about the background and the advantages.

Feel at home
For the bathroom at home all options are available; there is a wide variety of designs to choose from. Single flush, dual flush or stop-and-go flush. Even touchless solutions might be interesting, depending on your needs and bathroom design.

Semi-public solutions
For hotels, restaurants or hospitals there are a lot of touchless actuators available that even offer a dual flush system, helping you saving water. Of course all aspects of hygienic requirements are covered.

High-traffic public places
If you run a public toilet at a train station, an airport or in a night-club, you go for the vandal-proof actuators made of stainless steel. The infra-red steered actuators that offer a single flush, cleaning automatically after every use, should also be at the centre of attention.

All the available cisterns at a glance.

The tradition of hiding cisterns. Geberit concealed solutions.

- More than 50 years experience in the field of concealed cisterns.
- Over 50 million installed cisterns.
- Seamless cisterns, individually inspected and guaranteed to be leakproof.
- Guaranteed spare part security for 25 years.
- High water efficiency thanks to modern flush technology (WELLClass A).
- Wide design range of actuator plates.

Trigger points.
Geberit actuators for every application.

- The Geberit actuator plate is the only part you see of the concealed cistern. It is a piece of design, a decoration item for your bathroom. At the same time it is functional and easy to clean. Whatever needs you have – there is the correct actuator plate.
- In solid and drywall construction, the Geberit concealed cistern is the heart of more than 50 million concealed installations in the bathroom or WC. Every detail of this product is ingenious and has been proven a million times over. Plumbers and endusers have trusted polyethylene cisterns from Geberit for more than 50 years.

Eventful history, constant innovation.
Since 1964 Geberit has been working on product improvements and has constantly developed the quality and functionality of the cisterns. Not only has the product itself moved on, but so too have the product benefits.

The Geberit concealed cistern is the heart of more than 50 million concealed installations in the bathroom or WC. Every detail of this product is ingenious and has been proven a million times over. Plumbers and endusers have trusted polyethylene cisterns from Geberit for more than 50 years.

Beautiful design
The actuator plates are the eye-catchers in your bathroom. A concealed solution with wall-hung WC offers a lot of design options for your bathrooms.

Withstanding heavy load
The Geberit wall-hung solutions are designed and tested to withstand weights of 400kg.

Easy to clean
Thinner edges, joints and corners, the simpler to clean means more hygiene. Particularly in the WC area, it is better when ceramic appliances are wall-mounted to keep the floor space open.

Premium quality
All products from Geberit are known for their very high reliability and durability. This not only means safety and trouble-free function, but also reduces maintenance costs. Proven Swiss technology for decades.
Stylish calling cards
The Geberit Sigma concealed cisterns not only offer numerous installation possibilities, but also the widest range of stylish actuator plates. Be it for single flush, dual flush or stop-and-go flush, mechanical, pneumatic, hydraulic or touchless actuation.

The Geberit Sigma concealed cisterns offer solutions to almost every building situation and to every design idea. Thus, it is possible to create extraordinary bathroom looks that meet all the requirements and expectations.

Functional beauty
With Geberit Sigma cisterns not only style moves into your bathroom, but also functionality. With a prewall construction you gain space for cosmetics or other bathroom items. Another possibility to give your bathroom a personal touch.
Special treat for your toilet.
Geberit Sigma special solutions.

Sometimes the design of your bathroom creates a special request for the installation of the toilet. The Geberit Duofix installation elements offer solutions to almost any unusual construction situation.

Options with Geberit Sigma concealed cisterns:

- **Geberit Sigma**
  - For solid wall
  - For drywall
  - GIS compatible
  - Barrier-free solution
  - Front actuation
  - Low-height
  - Tool-free maintenance
  - Odour extraction
  - AQUACLEAN connection
  - WELL-Label

- **Geberit Omega**
  - For solid wall
  - For drywall
  - GIS compatible
  - Barrier-free solution
  - Front actuation
  - Tool-free maintenance

- **Geberit Alpha**
  - For solid wall
  - GIS compatible

**WELL Label**

- Water Efficiency Criteria
- Dual flushing
- Information about use and installation: www.well-online.eu.

The WELL-Label (Water Efficiency Label) helps consumers to select water-saving products in the sanitary sector. The Geberit Sigma concealed cistern 12 cm has been awarded the highest level of energy efficiency.
The Geberit Omega concealed cisterns are designed for low-height situations. Bottle-necks such as windows and roof-pitches are elegantly mastered.

Small and powerful. Geberit Omega cisterns.

Freedom of place
If you want to have a clean front view, Geberit Omega is offering the solution. Geberit Omega cisterns can be activated from the top. This adds to the various design options with Geberit concealed cisterns.

Small actuators
The service opening of the Geberit Omega cistern has a size of 180 mm x 110 mm which allows the installation of small, elegant actuator plates: Omega20, Omega30 and the surface-even Omega60.
Solution provider in narrow spots. Geberit Omega cisterns for low heights.

Geberit Omega opens up unexpected opportunities when it comes to the design of your bathroom. Having the freedom of choice to install a top or a front actuation, there are no borders anymore to your creativity in bathroom design and the implementation of your ideas.

Three cistern heights
The Geberit Omega concealed cistern can be installed at a height of 82 cm, 98 cm and 112 cm. No matter what installation height: the flush performance is outstanding. All the Omega cisterns come with a water-saving dual flush system.

Fit for almost every prewall
With a minimum depth of 12 cm for the front actuation and a minimum depth of 17 cm for the top actuation, the Geberit Omega concealed cistern fits into nearly any prewall. It can be connected to the water supply from the rear as well as from the side. Installing the cistern and mounting the actuator plate can both be completed without special tools.

Top or front – that is the question
Depending on the construction situation, the actuator plate can be installed on the top or front of the cistern. Whatever your bathroom looks like, you have the choice. The Omega cisterns are designed in such a way that both options can be chosen freely.

Tool-free maintenance
The Geberit Omega cisterns can be serviced without tools. This makes maintenance as easy as pie.

Solid wall installation

Geberit Kombifix installation elements are exclusively suitable for solid construction. They must be fastened in front of or inside a solid wall and then subsequently brick lined.

Geberit Duofix installation elements are suitable for all drywall construction situations with a drywall system. It is possible to create complete room-height prewalls or partition walls.

Drywall installation

Whether it be under windows or sloping roofs, in a corner or on a free-standing wall, systems and products from Geberit give you practically unlimited possibilities. Installations behind the wall lend elegance and increased space; part-height prewall installations offer additional storage possibilities.

12 cm wall-thickness

In the wall or in front of the wall. Flushing actuation from the front. Choose either a Sigma 12 cm cistern, an Omega cistern or an Alpha cistern with the included brackets.

8 cm wall-thickness

Solution for thin wall constructions or for space-saving installation in front of the wall, flush actuation from the front. Choose either a Sigma or an Alpha cistern.

Low-height situations

Solution for low-height installation with element heights 82 / 98 cm. Choose an Omega cistern.
