Optic crystal, formerly used only in optical and scientific instrumentation, was added as an innovative option to Schonbek products for its remarkably refractive properties, clarity, and sharpness of the cuts.

Machine-cut crystal mimicking gemstones, this crystal is characterized by sharp faceting that displays a pleasing balance of internal reflections of light.

Recalling the fashions of a bye-gone era, these colorful, fanciful beads, dainty droplets, and antique-style faceted ovals are woven into chains creating a jewel-like brilliance.

From the glass-making region around Venice, Legacy crystal is molded and fine-polished to produce subtle luminosity, offering a modestly priced option to cut crystal.
Schönbek offers a wonderful array of finishes for both classic and contemporary chandeliers. The frame finishes are hand-worked by craftsmen to create subtle hues and textures through complex layering and hand rubbing.

### Finish Selection

- White (-06)
- Black Pearl (-49)
- White (-06)
- Jet Black (-55)
- Brushed Stainless Steel (-16)
- Black (-51)
