

SCHONBEK CRYSTAL

SELECTION

CRYSTALS FROM SWAROVSKI (S)

Available in a myriad of colors, effects, shapes, and sizes, Crystals from Swarovski are produced according to the innovative, lead-free* Advanced Crystal Standard and cut with high precision. The 'Crystals from Swarovski' Seal serves as a certificate of authenticity that identifies products made with genuine Swarovski crystals.

SPECTRA CRYSTAL (A)

SPECTRA® CRYSTAL stands for machine cut Swarovski crystal with reliable Swarovski quality. SPECTRA® CRYSTAL has been a registered trademark since 1999 and offers the most important cuts in clear crystal.

HERITAGE CRYSTAL (H)

This heirloom quality crystal is characterized by visual purity, sharp faceting and precise polishing, offering shining clarity at industry standards. Also available in an array of beautiful colors.

ROCK CRYSTAL (R)

Rock crystal is naturally mined from the earth, not manufactured, and cannot be mass-produced. Skilled gem cutters grind, cut and polish each rock crystal by hand, enhancing its splendor, luminosity, and natural prismatic beauty.

OPTIC CRYSTAL (O)

Optic crystal, formerly used only in optical and scientific instrumentation, was added as an innovative option to Schonbek products for its remarkably refractive properties, clarity, and sharpness of the cuts.

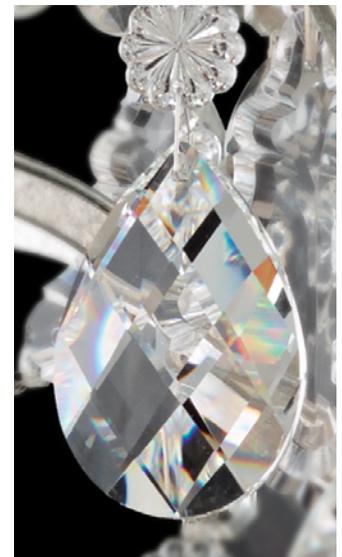

GEMCUT CRYSTAL (M)

Machine-cut crystal mimicking gemstones, this crystal is characterized by sharp faceting that displays a pleasing balance of internal reflections of light.

VINTAGE CRYSTAL (V)

Recalling the fashions of a bygone era, these colorful, fanciful beads, dainty droplets, and antique-style faceted ovals are woven into chains creating a jewel-like brilliance.

LEGACY CRYSTAL (L)

From the glass-making region around Venice, Legacy crystal is molded and fire-polished to produce subtle luminosity, offering a modestly priced option to cut crystal.

SCHONBEK FINISH

SELECTION

Schonbek offers a wonderful array of finishes for both classic and contemporary chandeliers. The frame finishes are hand-worked by craftspeople to create subtle hues and textures through complex layering and hand rubbing.
