An important service provided by PTU Electronic Security Solutions is the Maintenance of the various aspects of Security.

Regardless if a system was supplied by us or not, it still needs maintenance. Not just the basic touch ups but that service to preserve the system for lasting maximum protection.

With time and use there will always be some degree of wear and tear. Detecting this in time and before any major damage is caused, will always give the client control to ensure what matters most is protected.

There are different factors that can contribute to the various degrees of wear and tear. factor such as:

1. Incorrect Installation
2. Incorrect calibration or setting adjustments
3. Improper use of a device
4. Lack of maintenance
5. Lack of use
6. Abuse or forceful operation of a device and many more.

With our Maintenance Services, we ensure that all these factors are eliminated, and the durability of a product is preserved.

Security Systems are put in place to protect you, and most importantly to protect you when it matters most.
PREVENTION

We do specialize in the maintenance of:

ALL LOCKS ALARM/ FIRE
ALARM SYSTEMS DOOR
HARDWARE CCTV SYSTEMS
ACCESS CONTROL SYSTEMS
ELECTRONIC GATES

But systems which we stress must be regularly serviced is the Alarm/Fire Alarm Systems and Locking Systems, if not to all, but on main entry and exit point.

These silent protectors contribute greatly to ones’ safety.

PTU Maintenance Services was formed to keep your protectors operating at its optimal capacity.

To ensure that you are always kept safe.

Our Services can be customised to fit your needs.
